Career Objective

Motivated B.Tech CSE student specializing in **AI/ML** and **Computer Vision**, seeking opportunities in **Machine Learning Engineering** or **Data Science**. Proficient in **Python**, **Deep Learning**, and **Computer Vision** with hands-on experience building real-time AI applications.

Core Competencies

Python, TensorFlow, PyTorch
Machine Learning, Deep Learning, Neural Networks
Data Analysis: Pandas, NumPy, Matplotlib
SQL, Database Management

Computer Vision: OpenCV, YOLO, DeepFace
Git, GitHub, Google Colab, VS Code
OCR: EasyOCR, Flask, HTML, CSS
Model Training, Preprocessing, Data Augmentation

Projects

Aadhaar Shield — AI Document Privacy Tool | **Python, YOLO, EasyOCR, Flask** **Jan 2025**

- Developed automated privacy protection system using custom-trained **YOLO** model to detect Aadhaar cards in complex backgrounds
- Integrated **EasyOCR** for precise digit recognition and masking of first 8 digits of UID, preserving last 4 digits per security standards
- Built user-friendly **Flask** web interface with instant file upload and download for seamless document processing

Real-Time Face Mask Detection System | **Python, TensorFlow, OpenCV, CNN** **Dec 2024**

- Built custom **Convolutional Neural Network** using **TensorFlow** for real-time mask detection via webcam
- Implemented preprocessing techniques including grayscale conversion, histogram equalization, and **data augmentation**
- Integrated **OpenCV Haarcascades** for real-time face localization with live webcam feed processing

AI Face Recognition Attendance System | **Python, DeepFace, Pandas, Gradio** **Nov 2024**

- Developed biometric attendance system using **DeepFace** library with **ArcFace** embeddings for facial recognition
- Implemented cosine similarity-based matching algorithm for real-time identity verification through live webcam scanning
- Created automated **CSV-based attendance logging** with timestamps and interactive **Gradio UI** for user registration

Educational Qualifications

Rayat Bahra Institute of Engineering and Nanotechnology **Aug 2023 – Aug 2027**

B.Tech — Computer Science & Engineering | **CGPA: 8.5/10 (Sem 5)** | **Backlog: Nil**

XII (CBSE) | GMA City Public School, Hoshiarpur **2022**

Percentage: 81%

X (CBSE) | Swami Vivekanand Public School, Hoshiarpur **2020**

Percentage: 70%

Certifications

Artificial Intelligence Analyst

Data Analysis with Python

Pandas Certification

SQL (Intermediate) Certificate

IBM Career Education Program

IBM Cognitive Class

CodeChef

HackerRank

Achievements

- Developed **3 end-to-end AI/ML applications** in computer vision including object detection, facial recognition, and real-time classification
- Self-taught advanced **Deep Learning frameworks** including **TensorFlow**, **PyTorch**, **Keras** and implemented custom **CNN** and **YOLO** models
- Earned **4 industry certifications** from **IBM**, **HackerRank**, **CodeChef** in AI, Data Analysis, and Python
